

## PUBBLICAZIONI DI ROBERTO CATENACCI

- 1) B.Bertotti and R.Catenacci : Effects of gravitational radiation upon electromagnetic waves in a dispersive medium. *General Relativity and Gravitation*, **6**, 329-343, 1975.
- 2) M.Calvani and R.Catenacci : Geodesic motion in the Tomimatsu-Sato space-times. *Il Nuovo Cimento*, **31B**, 41-52, 1976.
- 3) M.Calvani, R.Catenacci and F.Salmistraro : A note on the first Tomimatsu - Sato metric. *Lettere al Nuovo Cimento*, **16**, 460-462, 1976.
- 4) J.Diaz Alonso and R.Catenacci : *Sur le problème stationnaire axisymétrique en Relativité Générale*. Proceedings of the Journées Relativistes 1976, M.Cahen, R.Debever and J.Géhéniau editors, Université Libre de Bruxelles, 59-70, 1976.
- 5) J.Diaz Alonso, R.Catenacci and M.Calvani : On the general solution of the Ernst-Maxwell equation depending on an arbitrary harmonic function. *Lettere al Nuovo Cimento*, **17**, 301-306, 1976.
- 6) R.Catenacci and J.Diaz Alonso : On the stationary axisymmetric Einstein-Maxwell field equations. *Journal of Mathematical Physics*, **17**, 2232-2235, 1976.
- 7) B.Bertotti and R.Catenacci : *Effects of gravitational radiation upon electromagnetic waves in a dispersive medium*. V.De Sabbata and J.Weber editors, Topics in theoretical and experimental Gravitation Physics, 63-68, Plenum Pub. Co. 1977.
- 8) R.Catenacci and M.Martellini : On the connection between the Dirac and the Dixon equation in a weak gravitational field. *Lettere al Nuovo Cimento*, **20**, 282-284, 1977.
- 9) M.Calvani, R.Catenacci and F.Salmistraro : Reversible and irreversible transformation in the Tomimatsu- Sato space-times. *Lettere al Nuovo Cimento*, **23**, 260-264, 1978.
- 10) R.Catenacci and F.Salmistraro : Classical geometrodynamics revisited. *Il Nuovo Cimento*, **46B**, 167-178, 1978.
- 11) R.Catenacci and F.Salmistraro : Almost-structures and structures in Lorentzian manifolds. *Journal of Mathematical Physics*, **19**, 2047-2051, 1978.
- 12) M.Calvani, R.Catenacci and F.Salmistraro : Irreducible mass for the Tomimatsu-Sato space-times. *General Relativity and Gravitation*, **10**, 35-41, 1979.

- 13) R.Catenacci and F.Salmistraro : On Kaehler metrics in Lorentzian manifolds. *Ann. Inst. Henri Poincaré*, **XXXI A**, 355-362, 1979.
- 14) F.Bevilacqua e R.Catenacci : Einstein, un centenario relativo. *Alfa-beta*, **14**, 5-6, 1980.
- 15) R.Catenacci, A.Marzuoli and F.Salmistraro : A note on Killing vectors in algebraically special vacuum space-times. *General Relativity and Gravitation*, **12**, 575-580, 1980.
- 16) R.Catenacci, A.Marzuoli and F.Salmistraro : Generalized Killing-Yano tensors. *General Relativity and Gravitation*, **13**, 425-432, 1981.
- 17) M.Calvani, R.Catenacci and F.Salmistraro : *Formula di massa e trasformazioni in metriche con singolarità nude*. Atti del III Convegno Nazionale di Relatività Generale e Fisica della Gravitazione, 189-193, Accademia delle Scienze Torino, 1981.
- 18) R.Catenacci and F.Salmistraro : *Geometria differenziale complessa in Relatività Generale*. Atti del III Convegno Nazionale di Relatività Generale e Fisica della Gravitazione, 205-209, Accademia delle Scienze Torino, 1981.
- 19) R.Catenacci and C.Reina : Algebraic classification of  $CP^n$  instanton solutions. *Letters in Mathematical Physics*, **5**, 469-473, 1981.
- 20) R.Catenacci : On the properties of Kaehler-Lorentz metrics. *Rend. Sem. Mat. Univers. Politecn. Torino*, **39**, 77-84, 1981.
- 21) R.Catenacci and C.Reina : Einstein-Kaehler surfaces and Gravitational Instantons. *General Relativity and Gravitation*, **14**, 255-277, 1982.
- 22) R.Catenacci, M.Martellini and C.Reina : On the classical energy spectrum of  $CP^2$  models. *Physics Letters*, **115B**, 461-462, 1982.
- 23) R.Catenacci, A.Marzuoli and F.Salmistraro : Invariance of the electromagnetic field in static space- times. *Physics Letters*, **93A**, 63-66, 1982. Errata corrige in *Physics Letters*, **114A**, 516, 1986.
- 24) R.Catenacci, M.Cornalba and C.Reina : On the energy spectrum and parameter spaces of classical  $CP^n$  models. *Communications in Mathematical Physics*, **89**, 375-386, 1983.
- 25) R.Catenacci and A.Marzuoli : A note on a Hermitian analog of Einstein spaces. *Ann. Inst. Henri Poincaré*, **40**, 151-157, 1984.
- 26) R.Catenacci and M.Martellini : On a geometrical interpretation of the Faddeev-Popov determinant for pure quantum gravity. *Physics Letters*, **138B**, 263-264, 1984.

- 27) R.Catenacci, M.Cornalba and C.Reina : Classical solution of  $CP^n$  non linear models: an algebraic geometrical description. *Journal of Geometry and Physics*, **1**, 53-84, 1984.
- 28) R.Catenacci, C.Reina and P.Teofilatto : On the body of supermanifolds. *Journal of Mathematical Physics*, **26**, 671-674, 1985.
- 29) R.Catenacci and F.Salmistraro : Multiply connected Universes and inequivalent Fields. *Journal of Mathematical Physics*, **26**, 1387-1390, 1985.
- 30) R.Catenacci, G.P.Pirola, M.Martellini and C.Reina : Group actions and anomalies in Gauge theories. *Physics Letters*, **172B**, 223-226, 1986.
- 31) R.Catenacci, M.Cornalba, M.Martellini and C.Reina : Algebraic geometry and path integrals for closed strings. *Physics Letters*, **172B**, 328-332, 1986.
- 32) R.Catenacci and F.Salmistraro : *Topologia dell'Universo e campi inequivalenti*. R.Fabrizi and M.Modugno editors, Atti del VI Convegno Nazionale di Relatività Generale e Fisica della Gravitazione, Pitagora Editrice Bologna, 61-65, 1986.
- 33) R.Catenacci and F.Salmistraro : *Small Universes and topological Sectors of a Field Theory*. R.Ruffini editor, Proceedings of the Fourth Marcel Meeting on General Relativity, Elsevier Science Publisher, 671-673, 1986.
- 34) R.Catenacci : *Algebraic Geometry and String Theory*. U.Bruzzo, R.Cianci and E.Massa editors, 7<sup>th</sup> Italian Conference on General Relativity and Gravitational Physics, World Scientific, 157-163, 1987.
- 35) R.Catenacci : *An Introduction to Algebraic Topology*. Monographs and Textbooks in Physical Sciences, Lecture notes 4 (Proceedings of the Springs School on Geometrical Methods in Theoretical Physics, Ferrara 1987, Bibliopolis (Napoli) 1988.
- 36) R.Catenacci and G.P.Pirola : A geometrical description of local and global anomalies. *Letters in Mathematical Physics*, **19**, 45-51, 1990.
- 37) R.Catenacci and C.Reina : Sollevamenti di azioni di gruppi e applicazioni fisiche. *Rendiconti di Matematica*, **10**, 151-160, 1991.
- 38) R.Catenacci : *Physical applications of Group Cohomology*. In "General Relativity and Gravitational Physics", pp. 107-114, World Scientific, 1992.
- 39) R.Catenacci e R.Cianci : *Supervarietà*. Voce dell'enciclopedia di Scienze Fisiche dell'Istituto dell'enciclopedia italiana. vol V p.62 1995

- 40) R.Catenacci e C.Reina : *Teorie di Yang-Mills, Aspetti geometrici delle*. Voce dell'enciclopedia di Scienze Fisiche dell'Istituto della enciclopedia italiana. vol VI p.587 1998
- 41) R.Catenacci: *Riflessioni sul concetto di simmetria*, relazione su invito alla IIX Venice Conference on Cosmology. Venezia 1997.
- 42) R.Catenacci e A.Lena: A Note on Global Gauge Anomalies, *Journal of Geometry and Physics* **30**, 48-54, 1999
- 43) L. Castellani, R.Catenacci, M.Debernardi e C.Pagani: Noncommutative De Rham Cohomology of Finite Groups, *International Journal of Modern Physics* **19**, no.12, 1961-1987, 2004
- 44) B.Bertotti, R.Catenacci, C.Dappiaggi: The legacy of pseudospheres: From geometry to physics.*Rivista del Nuovo Cimento*, **29**, **N.1**, 1-24, 2006.
- 45) B.Bertotti, R.Catenacci, C.Dappiaggi: Pseudospheres in geometry and physics: from Beltrami to De Sitter and beyond. *Un grande matematico dell '800: omaggio a Eugenio Beltrami, 1835-1900*. Istituto Lombardo di Scienze e Lettere, Incontri di studio n.39, pp. 165-194, LED Milano 2007.
- 46) R. Catenacci, M. Debernardi, P.A. Grassi, D. Matessi: Balanced Superprojective Varieties. *Journal of Geometry and Physics*, **Volume 59**, pp. 1363-1378, 2009
- 47) R. Catenacci, M. Debernardi, P.A. Grassi, D. Matessi: Čech and de Rham Cohomology of Integral Forms. *Journal of Geometry and Physics*, **Volume 62**, pp. 890-902, 2012
